
Enter the game called reality

Imagine: it is Sunday afternoon and an important F1 race is about to start. At the same time, all over the world enthusiastic gamers are starting up their computers and consoles. They are joining to compete in the live race. That is what we do! Bringing the real and the virtual world together: real time virtual participation in real events for everyone.

Who we are

iOpener Media GmbH is a young, dynamic and ambitious company that is operating in the area where gaming and motorsport industries come together. From our roots in the European Space Agency (ESA) we have grown into a company that has developed patented technology, including satellite navigation systems. We are a start-up going into the expansion phase, shaping up to be the leader in providing and facilitating real-time data into a range of virtual applications, e.g. race games and driver training. Do you want to join this race and play the game with us? Enter this reality now!
